[WHO WE ARE]

VIEWERS WATCH. CITIZENS TAKE PART.

The Republic is an independent creative and advertising agency in Lagos. We help ambitious brands find their direction and make their next move, with work people answer, share and come back to.

CLARITY BEFORE VOLUME

We solve for the right problem, then scale.

SYSTEMS OVER STUNTS

Big ideas become repeatable engines, not one-offs.

OUTCOMES OVER OUTPUTS

We measure what moves the business: brand, demand and revenue.

[A NOTE ON NUMBERS]

Every figure in this book comes from a named record with its date: platform counters, campaign reports or client-supplied data. Counters measure views and interactions, not unique people, and they are never added together.

[CHAPTER 01 • HOW WE THINK]

STRATEGY.

COMMUNICATION STRATEGY THAT STARTS WITH PEOPLE.

Every campaign we make starts here. We find the one true thing about the people a brand needs to move, then build the plan around it: the role the brand plays, what it says and where it shows up.

- ↳ INSIGHT AND HUMAN TRUTH
- ↳ POSITIONING AND PLATFORMS
- ↳ COMMUNICATION PLANNING

01

THE PROBLEM

The business problem, stated plainly, before anyone talks about ideas.

02

THE HUMAN TRUTH

One true thing about the people we need to move.

03

THE IDEA

A single idea the truth makes inevitable, simple enough to repeat.

04

THE SYSTEM

The idea built into formats, channels and moments that keep working after launch.

05

THE EVIDENCE

What moved, from records we can show, with each figure's source and date.

↳ **ONE RULE OVER ALL OF IT: THE WORK MUST PROVE THE STRATEGY, NEVER CONTRADICT IT.**

Together we
protect more
